

Evening of Gratitude

Lee and Jeff Alderton graciously hosted an *Evening of Gratitude* at their Palm Beach home to thank and celebrate the **American Heart Association Palm Beach's *Cor Vitae*** members. Attendees enjoyed cocktails and hors d'oeuvres while hearing from the American Heart Association Palm Beach team about the incredible impact their dollars have made in the local community.

The event was attended by nearly two dozen of the American Heart Association Palm Beach's *Cor Vitae* members, a dedicated group of donors who give to the American Heart Association each year to fund lifesaving research. Outside of the federal government, the American Heart Association funds more heart and stroke research every year than any other organization.

Funds raised for the American Heart Association Palm Beach County support community impact initiatives across Palm Beach County and the Treasure Coast. Recent work includes grants for food pantries to purchase cold storage to make fresh fruits and vegetables available for clients, and grants for churches to launch wellness screenings for community members.

For more information about *Cor Vitae* and the work of the American Heart Association Palm Beach email **Stacey Comerford** at Stacey.Comerford@Heart.org.
