

MEN'S ONLY MEDICAL GRAND OPENING

Men's Only Medical officially opened its doors at 116 N. Dixie Highway with a celebratory grand opening and ribbon-cutting event welcoming more than 80 guests and introducing a new standard of personalized, concierge-style men's healthcare in downtown West Palm Beach.

Demonstrating a commitment to the community, 20% of all opening-day sales were donated to **Impact 100 Men of Palm Beach County**, a nonprofit dedicated to funding education and social services for children in the community.

The grand opening included remarks from **Dr. Alejandro Miquel**, Medical Director and co-owner of Men's Only Medical, alongside local leaders who welcomed the clinic's innovative approach to men's wellness. Guests explored the state-of-the-art facility through guided tours and live demonstrations of health technologies offered on-site. The celebration featured curated cocktails, chef-prepared cuisine and live music along with raffles for premium wellness treatments.

"Men's Only Medical is about more than just appointments and procedures," said Dr. Miquel. "It's about changing the way men think about healthcare by creating an environment that's approachable, personalized and built around their unique needs. Too often, men avoid or delay seeking care and we're here to change that by offering a space that prioritizes comfort, trust and results. Our goal is to give every man the tools, privacy and support he needs to take ownership of his health and to do so with a plan that's as individualized as he is."

Local leaders and VIPs in attendance included District 5 City Commissioner **Christina Lambert**, President and CEO of the West Palm Beach Chamber of Commerce **Michael Zeff**, Impact 100 Men of Palm Beach County President **Richard Shaffer**, Assistant City Administrator **Armando Fana** and retired Army Ranger **Sgt. Matt Eversmann**, who was the inspiration for the book and blockbuster film *Black Hawk Down*.

The clinic features advanced diagnostic and treatment technologies, including facial and body composition analysis, intense pulsed light therapy, radiofrequency remodeling and IV therapy. Services address a wide range of concerns, including hormonal imbalance, sexual wellness, cardiovascular health, nutrition, weight management, hair loss and skin health. Membership starts at \$2,500 annually and includes 24/7 access to Dr. Miquel, same-day appointments, extended consultations and a private lounge. Medically necessary services may be billed to insurance. Men's Only Medical accepts most private insurance plans and Medicare.

For more information or to schedule a consultation visit menonlymedical.com or call 561.725.0206.
